

EARTHQUAKE AND FIRE DEVASTATE SAN FRANCISCO.

Thousands of Lives Lost and Many Millions in Property Destroyed.

Fifty Miles of Railroad Sunk North of the City.

FIRE DEPARTMENT DISABLED
MUCH DYNAMITE USED.

Disaster Came Upon Sleeping
City at 5:10 O'Clock in the
Morning.

Business Section of City Will be a Total
Loss and Most of City May Burn.

A fearful catastrophe occurred at San Francisco at 5:10 o'clock yesterday morning, when the city was visited by an earthquake which demolished many hundreds of buildings, rendered the water system useless and deprived the fire department of the means of fighting the flames. There were frequent and continuous shocks of lesser magnitude following the first and most disastrous shock that caused the great damage and loss of life. The earthquake was noticable at observatories all over the country, extending even to Washington, where the seismograph recorded the shocks.

At noon the loss of life was estimated at one thousand resulting directly from the earthquake, which caught the sleeping city unawares. There were at first wild reports in circulation saying that half the city was demolished and the other half literally swallowed up. The loss of life was put away up in the thousands.

The heaviest loss of life seems to have occurred in cheap lodging houses and hotels on Market street toward the Ferry Slips. The large department and other stores and business houses were empty when the shock came, else the loss of life would have been enormous. The residence portion of the city was but slightly damaged by the earthquake.

Fire broke out in many places and spread with great rapidity through the wrecked buildings. There was no water supply available to adequately cope with the flames and dynamite was resorted to. At 1 o'clock yesterday buildings were being blown up within a block of the Palace Hotel, the largest and most magnificent hotel in the city. The news at that time was that the task was considered hopeless.

At 2 p. m. a bulletin said that the flames continued to spread and that there was little hope of saving any of the business portion of the city. The loss up to that hour was estimated at no less than \$10,000,000.

The tracks on thirty miles of railroad north out of the city had sunk and were so damaged that the roads could not be used.

The first news cast a pall of gloom over the entire country and quickly put in the background the disaster and suffer-

ing the people of the neighborhood of Vesuvius have been and are now enduring. These are our kith and kin, our flesh and blood. Hundreds of thousands all over the whole country trembled for friends and relatives in the stricken city, and vicinity.

San Francisco, April, 18, 10 p. m.—It looks now as if the entire city would be burned. The Associated Press men are trying to get matter from Oakland by boat, but they are very uncertain. The Government is furnishing tugs, but the confusion is so great that they cannot be relied upon. It will be impossible to send full details for several days.

San Francisco, April 18.—From the Cliff House comes word that the great pleasure resort and show place of the city, which stood upon a foundation of solid rock, has been swept in to the sea. Not a thing stands to tell where the monster building once stood. It has been leveled to the foundation and only the rock lining of the sea-coast remains intact.

Facts About the Disaster.

Loss of life estimated from 200 to 3000 in San Francisco.

San Jose, 50 miles south lost many buildings and estimated 60 people killed. Martial law.

Leland Stanford university buildings damaged, two people killed.

Greatest destruction was in that part of San Francisco which was reclaimed from the bay.

Santa Cruz, Monterey, Gilroy, Hollister, Sacramento, Santa Rosa, Vallejo, and many other California towns were severely injured.

Gen. Funston in charge of troops in the stricken district. Fear of tidal wave felt.

Population of San Francisco over 350,000.

Over 250 earthquakes have been recorded there in the last 50 years.

The most severe were in 1808 and 1868. In 1808 many lives were lost.

One of the wealthiest cities on the continent.

Bulletin—Nashville 4:07 P. M.

San Francisco, April 18.—Late dispatches place loss of life at 8,000. Call building and the Emporium now gone. Market street is a seething furnace. Whole city east of Sanford street to water front and south of Market street as far as Tenth is completely destroyed. Now stated that every building in the city will be more or less damaged.

Bulletin—Nashville 5:10 P. M.

San Francisco, Cal., April 18.—Shocks are reported as far East as Hazen, Nev. Southern Pacific has brought in a ton of dynamite to be used if possible in destroying buildings to prevent spread of flames. Fire is now within half block of their general offices. They have dynamited two buildings. No one now allowed to enter the city. Boats and trains are crowded with refugees leaving. Property damaged, roughly estimated, \$40,000,000.

Continued on Page Five.

PEOPLE OF NEBO

Excited Over What Seems to Have Been Buried Treasure.

Last Wednesday night some unknown party went to the home of Mrs. Augusta Armstrong in Nebo and dug up in the back of the lot what was supposed to be a box containing gold and silver coins. Thursday morning Mrs. Armstrong discovered a pile of fresh dirt under a peach tree in the back lot. On investigating they found a hole that contained a decayed box on which were prints of coins, which appeared to have been tightly packed in the box and gave evidence of having been buried a long while. An old hoe with a handle was an instrument used in digging the hole.

The people of Nebo are much excited of the unusual occurrence and are trying in every way to solve the mystery.

CENTRAL CITY MYSTERY SOLVED.

Woman's Head Found by Three Boys—Left There by a Medical Student.

The sensation caused by the finding of a woman's head wrapped in a newspaper at Central City more than a week ago by three boys quieted, down and the mystery is solved. The head was left by the side of the L. & N. R. track by Dr. W. H. Cobb, a medical student of Louisville, who lives at Cleaton, Ky. It was the head of the dissected corpse of a woman which was given to him at the medical school and which he was bringing home to keep as a relic. On hearing of the illness of a wife and fearing so gruesome a sight might shock her Dr. Cobb left it on the pile of cross ties intending to return and get it after telling his wife. On reaching home he was asked to make several calls which he did and on returning found the head gone having been picked up by the boys and turned over to Coroner Brown.

Clyde Ashby's Head and Face Sa'd in the Railroad Yards Here.

Saturday afternoon while filling the tender of an engine with water in the yards here, Clyde Ashby was badly scalded in the head and face by the fireman sprinkling the coal on the tender with hot water not seeing Mr. Ashby approach.

He was given medical attention and sent to his home in Madisonville and it will likely be some time before he is able to resume his work in the yard.

Divorce Papers Withdrawn.

Mrs. Nola Sisk who last week filed a petition for divorce called at the office of Circuit Clerk Gatlin in Madisonville Tuesday accompanied by her husband and sincerely asked that the petition be withdrawn. Stating that the differences between she and her husband had been settled and that they still desire to live together. The document made by her was destroyed. Mrs. Sisk paid the cost that had already incurred in the case and they went their way rejoicing.

Mrs. Lula Sisk Dead.

Mrs. Lula Sisk, whose home was near Daniel Boone, died Sunday afternoon at 6:30 p. m., at the age of 34 years. Mrs. Sisk was a daughter of Daniel Todd, of St. Charles, and her husband, who with five children, survive her, is a son of Ex-Judge Sisk, of this county. Mrs. Sisk was buried Tuesday at Gordon graveyard, near Southard's school-house.

HOME TALENT IS SUSPECTED.

Believed That Home Local Artists are Doing the Burglaries.

BLOODHOUNDS FROM EDDYVILLE GIVEN TRIAL.

Stores of Victory and Coyle Suffer Small Losses in Early Monday Burglary.

Mr. Robertson, the bloodhound man from Eddyville, who followed with a pair of very ambitious dogs the supposed trail of the men who robbed J. M. Victory's store, declared several times before leaving Earlinton that one of the men who followed his dogs in the chase had taken part in the robbery. He said this openly and in the hearing of a number of citizens. He said he did not know one man from another here and did not say therefore who the party was that he suspected. Whether he communicated his suspicions fully to anybody here cannot be stated.

The pair of hounds that Mr. Robinson brought were certainly ambitious and seemed to do their work as well as many believed dogs can do, starting as they did on a trail that was many times crossed before they got out of town. They were unable to take hold of the trail from Coyle's store. Mr. Robertson had unlimited faith in his dogs and claimed that they held the trail from Victory's store until they came to where the burglars had taken a horse in the woods two miles north of town toward Madisonville. The party came to where a barefooted horse or horses had been hatched in the woods and the dogs did not do any good after that.

Robertson said his dogs had caught an escaped "jail man" at Eddyville the day before he came here, that is on Sunday; that they chased him about three miles through the country before he was overtaken, on a fresh trail. Just before leaving he told the gentleman who paid for his services that if he sent for him again he would come and "guarantee a catch", adding "no catch no pay."

Theories as to who are the culprits seem hard to formulate. It happened that there are circumstances that point to home talent in one case and possibly to the work of tramps in the other. It is thought that the fact that Mr. Coyle is not sure of any loss except some pennies and a hat may indicate that the burglary of his store was accomplished by tramps. Everything was rummaged through at Coyle's.

Neither Victory nor Coyle seem to have lost more than a small amount and at Farnsworth & Root's it is thought the thieves may have taken a few pocket knives, though this is not positive.

The robberies must have been committed early in the morning and the small loss may be accounted for on the grounds that the hour was late and they were scared away. Mr. Coyle went to his store about 8:30 Sunday night for some purpose. John X. Taylor, the druggist next door, went to his store to fill a prescription between 1 and 2 o'clock. Both were discovered by Clarence Mitchell, night policeman. Mr. Mitchell continued on his rounds until 3 o'clock, when he received a telephone message announcing the death of Mrs. Andy Sisk, who was a relative of Mrs. Mitchell,

at her home in the country. He then went home to take the news to his wife, going past Coyle's store, which was all right at that time.

Well toward morning the cook at Ashby & Livingston's, which keeps open all night and is a restaurant near Victory's store, heard a noise she did not understand and in a few minutes, when a train came by she heard breaking glass. She roused Mr. Livingston and told him. He went out back and saw the ladder which the burglar had used, standing against the roof of the grocery next to Victory's. This was the usual resting place of the ladder but it turned out afterward that this was the route the burglar took, going up the ladder at the rear, over the grocery roof to the front awning of Victory's, where a window was broken in the second story. The exit was made out the rear door on the ground floor. After looking around in the rear Mr. Livingston went out front, tried Victory's front door and then went around to the rear of that store. Here he found the gate to the high board fence open but everything else seemed normal and he returned satisfied. It happens frequently that a cow has opened this gate and there was nothing strange about its being open.

Coyle's store was entered through a front shop window in which a hole was knocked large enough to admit a man's body. The thief passed out the rear door after ransacking in vain for money. Mr. Coyle has learned by experience and always leaves his cash drawer open and empty. Farnsworth & Root's building was entered from the rear by breaking a glass.

"Move on" has been the watch word in the Earlinton police department and the order to all loiters for some time, and since these burglaries Marshal Barnett and Deputy Mitchell have redoubled their efforts in this regard. Several camps of tramps and strangers between here and Madisonville have been broken up and the order has gone forth that all loiters must keep moving.

A Popular Couple Wed.

The announcement of the marriage of Dr. Amos Davis, of Mortons Gap, and Miss Ada Lunford, of Madisonville, was quite a surprise to their many friends in the county. The Drs. made mention last week of Dr. Davis going to New York to take a post graduate course but did not at that time know of his marriage. Dr. Davis is one of the leading physicians of Mortons Gap. Miss Lunford was a popular young lady of Madisonville. Dr. Davis was accompanied East by his bride.

Easter Egg Hunt.

The scholars and teachers of the M. E. Sunday school, South met at the church Sunday afternoon at two o'clock and marched from there to the meadow near the arboretum where a large number of gaily colored eggs had been hid in every conceivable place. The many happy children made the echoes ring with their shouts of laughter as they ran here and there eager to find the hidden treasures. A prize of 25c was given to the child finding the golden goose egg and a sack of Easter candy the second prize for the one finding the red goose egg. Lee King was the fortunate one, finding both the eggs. The hunt lasted an hour and each child went home with a liberal share of Easter eggs.

NEW BUILDING FOR PRESIDENT'S HOME

Proposition Stirs Vigorous Opposition Upon Patriotic Grounds.

WILL OUR NAVY CUT OUT
COAL IN TIMES OF PEACE?

Lawmakers Discover That Child Labor Law Should Not be Universal.

Washington, Apr. 16.—(Special) A new executive mansion for the President of the United States, to be located nearly a mile further from the center of the city than at present, which shall in every way be splendidly fitted up and furnished, is the plan over which Washington is considerably stirred up at present. It is reported at the Capitol that the President has been approached on the subject, and that he has indicated his enthusiasm in no uncertain tones. To meet the objections of patriotic Americans to the abandonment of the present White House, those who are furthering the plan propose that it shall not be actually abandoned, but shall be used either as the residence of the Vice President or for offices of the President. But even these suggestions can not quell the opposition to the plan, of those who remember that the White House has been the residence of all the Presidents from George Washington to Roosevelt, in an unbroken line, except for the temporary lapse occasioned by its partial burning when the British captured the city in 1814, and who therefore rightly look upon it as the center and source of patriotic associations. From those, also, who look with pride upon the plain yet impressive White House as the very emblem of democratic simplicity, the proposal to provide an executive castle will bring lasting opposition. Of course, it is true that the growth of executive business demands increased accommodations, but it seems to be the general opinion here that the White House grounds afford ample room to provide for additions sufficient to accommodate the growth of many years.

There is reason to believe that a vote will be had on the Hepburn bill in the near future. The able speech of Senator Bailey this week has cleared the political atmosphere. While the Texas did not deal directly with the Hepburn measure, but devoted himself to a discussion of the right of Congress to prohibit the lower courts from setting aside temporarily the orders of the Interstate Commerce Commission pending appeal, his argument served to disclose the attitude of the Senate majority. This disclosure has resulted in the first clear-cut alignment of the different factions. The radicals realize the impossibility of the passage of any amendment restricting full court review, and their acknowledgment of this fact has removed the principal cause of the deadlock. A growing majority is said to be in favor, also, of an amendment providing suspension of the Commission's rate orders when they are being reviewed in court, the carrier lifting bonds in each case to cover the amount in action. Altogether, the prospects for the enactment of conservative and efficient rate legislation at an early date are much brighter.

It Pays to Advertise.

SHORT LOCALS

Howard J. Braxton leaves next Monday for Dixon to conduct a series of meetings.

Every one likes a good hearty laugh. Come to Temple Theatre April 20 to laugh at "A Country Schoolmarm."

Mrs. Fernando Nelson, who has been ill for some time, is in a critical condition, and it is thought that her recovery is impossible.

Lost—A plain gold ring Saturday between Crenshaw and the Company's store. Finder will please return to Bee office and receive a liberal reward.

Chas. Keegen, who has the reputation of being one of Earlington's best marksmen, intended to attend a shooting match near the city last week, but was unable to make arrangements to leave his business.

The prices for "A Country Schoolmarm" at Temple Theatre, April 20 are 25, 35 and 50 cents. This will enable everyone to attend.

Mr. Haines, the machinist, who works for Mr. Hays, has moved his family from Madisonville to Earlington, and is boarding with J. T. Denton. Mr. Haines expects to leave for California this fall.

There will be something doing at Temple Theatre Friday night, April 30. Come out and enjoy yourself. It is for a good cause.

An Easter service was held at the M. E. Church, South, Sunday morning at 10 o'clock, instead of the regular Sunday-school, which consisted of sweet Easter songs by the children's choir, and interesting and appropriate talks by J. E. Fawcett, Walter Martin and Albert Larmonth.

For Sale—One bed room suite good as new. Will sell cheap. Apply to Mrs. N. W. Miller, Farren Avenue, Earlington, Ky. 2t

An old fashioned revival will begin at the Tabernacle in Madisonville on May 1. Evangelist Andrew Johnson, of Wilmore, Ky., will have charge of the preaching. He is one of the most noted evangelists in the state. Mr. W. H. Hardy and wife, of Evansville, assisted by Mrs. Carrie Crow and sisters, Misses Keel, will have charge of the singing. Everybody is invited.

Americans like to laugh, and this fact is not overlooked by the Bohrer-Symphony Club. Several numbers on their program as well as all their encores are full of fun, and you will be highly entertained by their program at the Temple Theatre on May 8th.

One hundred and sixty-four attended Sunday school at the Christian church last Sunday. A dainty Easter souvenir was given each member. The song service at both morning and evening hours was especially enjoyable. Mr. Geo. B. Ranshaw delivered a worthy appeal for home mission to a large and attentive audience. A surprise is in store for someone who attends the Sunday school next Sunday morning. Come and see who and what it is.

Conventionality in play building thrown to the winds, away from the beaten path; no wronged heroine, no mortgaged farm, no snow storm, no thrashing machine, no husking bee, but an absolutely new, original and up to date theme; sturdy characters that are a delight to behold, their portrayals so utterly untheatrical and artistic, so true in every tone and gesture that the total effect is a continuous performance of jollity and joy. That is what "The Hoosier Girl" is. At Temple Theatre Monday night, April 22.

Despite the unfortunate cool cloudy weather conditions of Easter Sunday, many were in their new suits, hats and other finery, while the spring bonnets shivered in the cool breezes and the "Parade" was not up to the standard. The attendance at the churches were large at each place some phase of the Resurrection was the theme and in the Catholic church the program was elaborate.

In the homes Easter eggs of many shades were popular as ever and the "bunny" of ancient lore received due recognition, untheatrical as the conveyer of some delicious confections. It takes more than a cloudy sky to rob Easter of its joy and many a heart vibrated with fervor under the inspiration of the greatest of all Christian anniversaries.

CHEAPER FARM LAND.

SOUTHWEST OFFERS BEST OPPORTUNITIES FOR SECURING HOMES.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the Southwest. Many who have been unable to own their homes in the older country are buying land in the new country.

Unusual opportunities exist along the lines of the Missouri-Iron Mountain Route. The rich, alluvial, delta lands and river bottom lands of Southwest Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 80 bushels of corn, a bale of cotton, 4 to 8 tons of alfalfa, 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums, grapes, berries, melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

This is a fine stock country. No long winter feeding. Free range, pure water, and climate. A healthy, growing country, with a great future. Write for map and descriptive literature on Missouri, Arkansas, Louisiana, Texas, Kansas or Indian Territory. Very cheap rates on first and third Tuesdays of each month. Address:

R. T. G. MATTHEWS, T. P. A., Louisville, Ky., or E. C. GOWEN, T. P. A., St. Louis, Mo.

NEGROES LYNCHED AT SPRINGFIELD, MO.

TWO CHARGED WITH CRIME AGAINST A WHITE WOMAN—OTHER WITH MURDER.

Governor Sends Troops, Judge Calls Special Grand Jury. Arrests Made and Bench Warrants For Others—Bitter Race Hatred Exists—As Echo in St. Louis.

At Springfield, Mo., a mob numbering thousands stormed the jail, on the night of Saturday, April 14, and took two negroes, charged with crime against a white woman, lynched them and burned their bodies. Returning to the jail, they secured another negro, charged with murder, and lynched him and burned the body. Making another trip to the jail for more victims, they found that the prisoners, 14 in number, charged with serious offenses, several under penitentiary sentences, had escaped. Monday morning several companies of militia arrived, and dispersed the crowds on the streets. The mob is said to have been led by an 18-year-old boy, and that there were men from Bolivar, Mo., in its ranks. Bolivar is the home of the woman alleged to have been assaulted. Gov. Folk says the lynchings should be given the extreme penalty of the law.

Monday night the situation was further strained by the killing of a negro by a young man. The young man was escorting a young woman home from a theater, when they were attacked by two negroes. The young man surrendered to the authorities, but was released.

Monday Judge Lincoln ordered the sheriff to call a special grand jury to investigate the lynchings. The governor ordered Assistant Attorney-General Lake to proceed to Springfield and assist prosecuting Attorney Patterson. During Monday bench warrants were issued in the criminal court for 25 men who, it was alleged, participated in the lynchings. The warrants charged murder in the first degree. Four arrests were made on Monday. They were Charles Canefax, Owen Calvey, Ott Hall and Daniel Crane, all well known. Crane was released on \$10,000 bond.

There are about 7,500 negroes in Springfield, and the race hatred exists between them and many of the whites.

There is doubt of the guilt of the negroes lynched. The young woman who was assaulted, says she is alive as to the identity of one, but having been shown the other negro after the arrest, she is in doubt. The one lynched charged with murder declared his innocence, and said that the crime was committed by another negro, giving his name.

On Monday a resolution was introduced in the convention of the Southwestern Commercial club, in session at St. Louis, by George Russell Brown of Little Rock, Ark., condemning the Springfield lynching, and commending Gov. Folk of Missouri for his action and suggesting that the resolution be voted Gov. Folk. It was tabled by a two-thirds vote. B. B.addock, of Fort Worth, Tex., made the motion to table shouting: "They did right! Every negro who lays his hands on a white girl should be lynched!"

ROOSEVELT'S NEW ISSUES

Authentication of His Corporations and a Modified Form of the Income Tax.

Washington, April 15.—Members of the senate and house and leading men of the republican party were, Saturday, handed two brand-new issues by President Roosevelt. One is a modified form of the income tax, or, as stated by Mr. Roosevelt a new form of the inheritance tax. Another contemplates the nationalization of the big corporations of the country under the provision of the constitution which authorizes congress to regulate interstate commerce, it being the contention of the president that all great corporations are more or less engaged in the conduct of interstate business. Both were surprises to most of those who listened to the speech of the president at the congressional office building corner stone laying.

FRANCE WILL NOT RELAX

Retirement of Castro to Have No Bearing on Venezuelan Policy.

Washington, April 16.—The state department has received from Caracas its first official information of the temporary retirement of President Castro of Venezuela. There is no likelihood that the attitude of France toward Venezuela will change on account of the sitting of the executive title and responsibility by President Castro, for the French will hold the Venezuela government responsible for the treatment of M. Taigny, the Venezuela chargé d'affaires, who was elected from Venezuela last fall, whether President Castro is at the head of the government or not. Officials are sure that if President Castro finds himself losing control by his temporary retirement, he will immediately get back into office again.

Killed By Texal Indians.

El Paso, Tex., April 17.—A telegram from Hermosillo, state of Sonora, Mexico to the family of Samuel Williams of this city, received Sunday, says that Yaqui Indians killed Williams on Saturday. According to advice, his party was ambushed and the fate of the other members is unknown.

ALL MAIL ORDERS PROMPTLY FILLED. MEMBERS RETAIL HERRMANS ASSN.

The Advantages

In doing your Spring trading for men or boys' wear at High Art Store are innumerable and will many times repay you for the time and trouble you may take to pay the store's visit for buying purposes, aside from the fact that we pay you or rather refund to you a round trip fare for any distance up to 40 miles from our store. We sell you at retail the best that money can buy in men's and boys' clothing, Hats, Caps, Shoes and Furnishings at factory prices. Being among not only the largest but the foremost manufacturers of America enables us to do this for you. We would be glad to see you in person or hear from you by mail at an early date, while our stocks are large.

Jas. Crenshaw,
EARLINGTON, KENTUCKY.

How to Boil Water.

To boil water would seem to be a simple thing, and yet the late Charles Delmonico need to say that very few people know how to do it. "The secret is," he said, "in putting good fresh water into a clean kettle already quite warm and setting the water to boil quickly and then taking it right off for use in tea, coffee or other drinks before it is spilled. To let it steam and simmer and evaporate until the good water is in the atmosphere and the time and iron and dregs only left in the kettle is what makes a great many people sick, and it is worse than no water at all." For water boiled like this and flavored with a few drops of lemon juice Mr. Delmonico used to charge as much as for his best liquors, and he often recommended it to his customers and friends who complained of loss of appetite. It is worth trying.—Good Living.

Take the family paper—THE BEE

On the night of April 30 the Tribe of Ben Hur will give "A Country Schoolmarm" at Temple Theatre for the benefit of the Earlington lodge. The cast is all home talent and a good show is assured.

The Bee

MAKE HOME WHOLE.

SOME—BEAUTIFUL.

Earlington is growing. And as steady, healthy growth comes and the advantages of a small city are gradually attained, there are some things come that should be avoided. Among the objectionable physical conditions that are easily prevented is the overcrowding of dwellings upon less than a full sized town lot as laid out on the map of Earlington. These lots are 50 by 100 feet and all run back to an alley, giving good access to both front and rear. Upon such a lot it is possible to have a complete home, with nice front yard space and good garden plot with all necessary out houses. The town was laid off in the beginning with wide streets, regular blocks, and lots all of one size. The integrity of the original plan has been preserved in the great majority of cases but there is found here and there the exceptional crowding which should not find place in a town of this size. It is unfortunate that even in a large city buildings should be crowded up so that the residents are deprived of a liberal airing space about their dwellings. In a town of Earlington's size, where lots are not worth a fortune per front foot it is even a greater misfortune that anything should occur that approaches overcrowding. And it is a source of common pleasure that such instances are very much the exception. Of course there is a diversity of taste. It is not every one who cares for a roomy yard or a garden spot or a lot on which to raise poultry. There are those who perhaps prefer all the value of their monthly payments condensed into house comforts. We can have no quarrel with these or with the property owners who build cozy accommodations to meet their tastes. But the progressive tendency everywhere is toward a closer touch with nature; the demand is growing for homes with fresh air space and sunshine area, where something can be done on the outside toward making the "home beautiful," where the children may have the opportunity within their own enclosure to get close to green Mother Nature, where they may war dirty and grow strong in their own sunny reservation—and not be wholly innocent of grass stains.

All over Earlington are these cottages with flower and kitchen gardens, embowered in roses and vines and planted about with fruit and shade trees. And places that show these touches of love and nature are homes in the real sense, whether they be on a half lot or a broad acre. Many such there are and many more there should be. And this is the season in which to beautify. There are so many simple, easy things that may be done at little expense of time or money. Let's all begin now to strive for the making of a clean and attractive—a beautiful town, in every quarter. What a change could be wrought in a short time if everybody would begin now to do something to make their homes more attractive and wholesome. There is no street front, back lot or alleyway that is intended as a dump for

ashes or empty cans or trash. Avoidance of these conditions, the cultivation of the little plot, the planting of a few trees, sowing a little grass and a few flower seed would very quickly transform many unsightly lots into wholesome and beautiful dwelling places.

The Bee would feel that it had done the community and itself a great service if it could know that it had said or done anything that stimulated even one single man, woman, boy or girl in Earlington or elsewhere to act on these suggestions. Let's us all begin.

It may not seem wholly consistent for our lawmakers to pass a child labor law and exempt pages in the Congress. Doubtless these pages do get a liberal education in the service, but Congress is not the only place by any means where a boy who needs to make his own way in the world may learn things useful to him then and in after life.

WORKING IN BURIED TOWNS

Taking the Dead From the Ruins of Ottajano and San Giuseppe, Near Vesuvius.

Naples, April 18.—Vesuvius remains quiet. The gravity of the situation has shifted to Ottajano and San Giuseppe where the recovery of the dead from the debris goes on amid the misery of thousands of homeless refugees. A seasonal development occurred during the work of salvage at Ottajano when the searchers unearthed two aged women, still alive but speechless after six days' entombment. They were among the hundreds who were crushed beneath the falling walls during the terrible rain of stones and ashes a week ago. Hope had been abandoned of finding any of these persons alive. The women were protected by the rafters of the house which they were in and had managed to exist on a few morsels of food which they had in their pockets.

Many bodies are in the ruins. The work of salvage goes on amid the twist and mass of fallen houses, churches and stables and in deep drifts of cinders and ashes. At some points the ashes are ten feet deep, reaching to the windows of the second stories of the few hovels still standing.

BREAKS TARGET RECORD

One of Uncle Sam's New Males New Mark On Cruiser Pennsylvania.

Washington, April 18.—Seventeen shots in 90 seconds, every one of which hit the bullseye, is the new marksmanship record of the navy, made by Lieut. Braly, in charge of the six-inch gun on the cruiser Pennsylvania. The new record was made at the target practice on the Atlantic coast. One of the most remarkable feats of this record is that the seamen who loaded the gun handled 1700 pounds of projectiles in 90 seconds. Each projectile weighs 150 pounds. In former years the naval regulations required that one shot should be fired in 90 seconds.

Beautiful Louisville.

Louisville, Ky., April 15.—The pupils of the Louisville public schools were dismissed and sent home to plant flower seeds, 350,000 packages being given out for this purpose. The day was set aside for the beautifying of lawns and back yards by the board of education, at the suggestion of the committee having in charge the entertainment of visitors who are expected here "homecoming week," two months from now.

Little Increasing Pensions Passed.

Washington, April 16.—The senate passed bills increasing the pensions of ex-soldiers who lost limbs in the service; retiring and pensioning petty officers and men of the army, navy and marine corps after 30 years of service at three-fourths their regular pay, and increasing the pensions of ex-Mexican war soldiers to 32 per centum and making the attainment of 75 years of age evidence of disability.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. A single dose of Ayer's Sarsaparilla will cleanse the blood, build up the system, and give the children a healthy, rosy complexion. It is the best medicine for children of all ages. All druggists, sugar coated.

Made by J. C. Ayer & Co., Lowell, Mass.

SKIN ECZEMA IN WORST FORM

Black Splotches All Over Face—Produced Severe Itching—Year's Treatment by Physicians Did No Good and Became Despondent—Affected Parts Now Clear as Ever—Alabama Lady's

CURE BY THE CUTICURA REMEDIES

"About four years ago I was afflicted with black splotches all over my face and a few covering my body, which produced a severe itching irritation, and which caused me a great deal of annoyance and suffering, to such an extent that I was forced to call in two of the leading physicians of my town. After a thorough examination of the dreaded complaint they announced it to be skin eczema in its worst form. They treated me for the same for the length of one year, but the treatment did me no good. Finally I became despondent and decided to discontinue their services. Shortly afterwards, my husband procured a copy of a weekly New York paper saw an advertisement of the Cuticura Remedies. He purchased the entire outfit, and after using the contents of the first bottle of Cuticura Resolvent in connection with the Cuticura Soap and Ointment, the breaking out entirely stopped. I continued the use of the Cuticura Remedies for six months, and after that every splotch was entirely gone and the affected parts were left as clear as ever. I have not felt a symptom of the eczema since, which was three years ago."

"The Cuticura Remedies not only cured me of that dreadful disease, eczema, but other complicated troubles as well, and I have been the means of others being cured of the same disease by the Cuticura Remedies, and I don't hesitate in saying that the Resolvent is the best blood medicine that the world has ever known." Lizzie E. Sledge, 140 Jones Ave., Selma, Ala.

Write to the world. Cuticura Soap, Ointment, Resolvent, etc. (in form of Cuticura Resolvent, 50¢ per bottle of 50¢), may be had of the Cuticura Remedies Co., P.O. Box 100, Lowell, Mass., U.S.A. or of the Cuticura Remedies Co., P.O. Box 100, Lowell, Mass., U.S.A. or of the Cuticura Remedies Co., P.O. Box 100, Lowell, Mass., U.S.A.

PIERCE RIOT IN ARKANSAS

Twelve Killed When Foreigners Celebrate Easter.

Greeks, Roumanians, Poles and Slavs Engage in a Drunken and Bloody Fracas.

Helena, Ark., April 17.—A fierce riot occurred in the southern part of this (Phillips) county. The scene of the trouble is along the line of the Memphis, Helena & Louisiana railroad, near a small station called Gurley.

On Saturday a number of Greeks, Roumanians, Poles and Slavs came to this place and laid in a large lot of whiskey and beer to celebrate Easter. About 150 of them became drunk and engaged in a furious quarrel among themselves. Finally hostilities began, and they used knives, pistols, guns and axes on one another. The first man killed was the foreman of the gang, and the only man in the crowd who could speak English. Before there was a cessation of hostilities six men were killed outright and a large number seriously wounded.

The trouble was renewed Monday morning and three others were killed. The sheriff of this county was called on and he summoned several officers, whom he led to the scene of the trouble. The officers set about to quell the riot, and in their endeavors felt compelled to kill three of the more turbulent ones, who led in resistance. Later the sheriff called on the governor to send troops, and Capt. J. C. Meyers, of Helena, and 30 men of his military company were ordered to the scene of the disorder.

A RIOT AMONG STRIKERS.

Four Dead and Others Injured As a Result of a Miners' Riot at Windber, Pa.

Johnstown, Pa., April 18.—Three men were shot dead, a boy fatally wounded (since died) and a mining engineer, Eugene Delaney seriously injured and several received minor hurts in a riot at Windber among the striking coal miners Monday night. The place is in a state of terror. Sheriff Begley has been summoned and an appeal was made to Gov. Pennypacker for troops. Order was restored by midnight.

Five hundred Missouri democrats attended a Jefferson day banquet given by the Missouri State Democratic Press association in Kansas City.

Mrs. Henry Davis Suffers Hemorrhage.

On her way home from a neighbors Saturday afternoon Mrs. Henry Davis, of Mortons Gap, was attacked with a severe hemorrhage and before she could call for help fell unconscious in the road with the blood gushing from her mouth. Two negroes passing carried her home and Dr. Williams was sent for and it was sometime before he could restore her to consciousness. Mrs. Davis has about recovered from the severe attack.

We can make you look like either of these faultlessly dressed fellows for a small sum of money.

USE St. Bernard Coal.

Mined in Hopkins County, Kentucky, the largest coal producing county in the State. This Company operates

Eight Large Mines.

and produces about one-sixth of all the coal mined in all Kentucky.

Best Coal for Steam and Domestic Purposes.

St. Bernard No. 9 Coal has come to be recognized, through years of satisfactory use, as the standard grade both for steam and domestic purposes, in the large territory reached by our products. Another point in favor of our coal is the fact that we have established an unimpeachable record for

Prompt Service the Year Around.

Our mines are operated more days in the year than any mines in Kentucky and with an enormous output command we are able to give the promptest and most satisfactory service.

St. Bernard Coke

is also a superior fuel and is extensively used in blast furnaces and heating furnaces for residences or any other building that needs to be heated, and takes the place perfectly of high priced anthracite coal. This coke is extensively used in manufacturing as well and is furnished in various grades.

If your dealer does not handle our coal and coke write to us.

COL. NOEL GAINES

Finds Nothing But Commendation and Praise for Co. G, 3d Infantry.

Tells Some They Are the Best Company in the State.

Co "G" 3rd Inf. K. S. G. was inspected Thursday night April 12th by Capt Melville S. Jarvis, of the 4th Inf., U. S. A. and Col. Noel Gaines Inspector General of Kentucky. The boys made a fine showing and the inspectors were highly pleased with the conditions in which they found nothing to complain of the members of Co "G" sure they have maintained their standing as the best Company in the State which they won at the 1906 annual inspection. Col. Gaines was asked to select three Soldiers that passed the best inspection to receive the 3 prizes offered by Capt. Price and the following were awarded 1st 2nd and 3rd prizes as named 1st Sgt. Thos. O. Long, Sgt. Claude Long, and Private Rice Bowles. Captain Jarvis commented on the fine appearance made by the men and said they looked like Soldiers and not like the spindling boys he had been finding in other Companies.

Ankle Sprained.

Sunday afternoon, as Mrs. Knight, of this county, was starting home having spent the day with her sister, Mrs. Childers, of this city, the horse she was driving became unruly which frightened Mrs. Knight so that she jumped out of the buggy and sprained her ankle, from which she has suffered greatly. She is yet at the home of Mrs. Childers and resting more comfortably.

Mrs. Will Jackson Falls From Train.

Monday afternoon as Mrs. Will Jackson, of this city, was getting off a train in Madisonville she lost her balance and fell face downward on the platform slightly bruising and scratching the left side of her face. She was taken to Harbottle's stable and given attention. She was able to return home that afternoon.

ROBERT W. CHURCH.

Pioneer Citizen Visits Earlington After Twenty-Five Years Absence.

Robert W. Church, of Lutie, Ind. Terr., accompanied by his wife, who have been visiting friends here, left last week for Indiana and Illinois, where they will visit relatives several weeks before returning home. This was Mr. Church's first visit to Earlington in 35 years. Mr. Church was the first initiated candidate into the E. W. Turner Lodge No. 568 A. & P. M., after its organization and a banquet was given in his honor by the local lodge during his stay here. A coincidence of the banquet was the meeting of Jao. R. Evans, of this city, and Mr. Church. When Mr. Church left Earlington in 1880 he was Worship Master of the lodge and Mr. Evans was Senior Warden. After his departure Mr. Evans filled the office pro tem and was sent as a representative to the Grand Lodge. This was their first meeting since that time. Since leaving here Mr. Church has graduated in Masonry and is now a 32 degree Master.

He is employed as superintendent by the Hopkinsville Coal Company and has charge of two mines. Jao. Elliott, a former employee of the mines here, is also located in the Indian Territory and is a stockholder and general manager of one of the largest coal companies in the Southwest. He intended to visit Earlington with Mr. Church but couldn't make arrangements to come when he did. He is also well remembered by the older citizens of the city.

STAY IN POWERS CASE.

May Possibly Keep Him From Another Trial in Kentucky.

Washington, April 17th—The Supreme Court has granted a stay of mandate for thirty days in the Caleb Powers case while his attorneys prepare a petition for rehearing. This is a victory for Powers attorneys. It is said that if a bill now before Congress passes Powers may never be tried again in Kentucky courts. But it is not believed likely that the bill will pass.

EARTHQUAKE AND FIRE DEVASTATE SAN FRANCISCO.

Continued From Page One.

000,000 up to 11 o'clock a. m. Four hundred dead are now in Mechanics' Pavilion. Heavy shocks at 9:15 and 10 a. m. added to damage and alarm.

Salatun—Nashville 3:35 P. M.

Connections re-established by Western Union with its main office, but fire is creeping toward it and it will probably be obliged to soon abandon the building, as adjoining building is now on fire.

The Postal Telegraph building just destroyed through fear of collapse. At 3:30 p. m. a succession of slight shocks reported.

Angle Cafe, Bronx, destroyed and Palace Hotel now reported on fire.

Bulletin—Nashville 4:01 P. M.

San Francisco, April 18.—Interval of three hours between first and second shocks, the latter finished the destruction of buildings unsettled by former. Thieves are already at work. Troops are hastening from Premito.

Burley and Asburton report ed demolished: Examiner and Call building doomed. Fire Chief Sullivan killed.

A BRILLIANT GATHERING

Opening of the Four Days' Celebration of the Two Hundredth Anniversary of Franklin's Birth.

Philadelphia, April 18.—In the presence of a brilliant gathering of persons distinguished in the arts, sciences, literature and in many branches of education, the four days' celebration, in this city, of the two hundredth anniversary of the birth of Benjamin Franklin was formally opened in the afternoon, the first of the series of events.

Many of the delegates have received high honors in their chosen calling, and as they filed into the hall wearing their decorations or their academic robes and took their seats they presented a brilliant scene.

The celebration is in charge of the American Philosophical Society for promoting useful knowledge, founded in 1743, and of which Benj. Franklin was the first president. Besides the reception of guests and the reading of formal addresses of felicitation from societies and educational institutions in Europe and America were read, and Andrew Carnegie, lord rector of the University of St. Andrews, conferred the degree of doctor of laws upon Miss Agnes Irwin, dean of Radcliffe college, who is a great-granddaughter of Benj. Franklin.

FIFTY-NINTH CONGRESS

The Senate Continues With the Rate Bill—House Clears Its Deck For the Money Bills.

Washington, April 18.—Preceding the taking up of the railroad rate bill in the senate, Tuesday, Mr. Tillman called on his resolution directing the senate committee on finance to enter upon an investigation of the question of campaign contributions by the national banks and after he had spoken at length the resolutions were referred to the finance committee.

To clear the legislative decks for pending money bills, for the support of the government, the house worked uninterruptedly from 11:20 to 5 o'clock. In that time 11 general bills were passed under suspension of the rules, all sections of the country being interested in the legislation enacted.

BAYONETS AT WINDBERS

Pennsylvania State Constabulary Preserving Order Among the Non-Tolant Men and Strikers.

Johnstown, Pa., April 18.—Windber's streets are bristling with bayonets of the state constabulary, retaining order that was brought out of the riotous and chaotic conditions that prevailed for several hours Monday night. There is still an undercurrent of feeling that there will be another outbreak when the funerals of the mob victims are held. It needs but a petty quarrel between the strikers and non-striker men to set the town again in lawlessness.

Attended Elsewhere Arrested.

San Francisco, April 18.—Joseph M. Drinkwater, of Chicago, and his sister-in-law, Mrs. Doris Drinkwater, were arrested here, Tuesday, on complaint made by Charles Drinkwater, the woman's husband, charging that they eloped from Chicago, taking \$14,000 of his money.

A Norwegian Exodus.

Minneapolis, Minn., April 18.—The coronation of King Hakon of Norway at Thindkjem, Norway, June 24, is expected to cause an exodus of thousands of Norwegians from the west and northwest to the old country this spring.

Nicotine Light Plant Burned.

New Madrid, Mo., April 18.—Fire completely destroyed H. B. Day's electric light plant and a warehouse; loss, \$5,500.

COMMISSIONER FOR HOPKINS COUNTY.

John B. Atkinson Named by Governor Beckham to be Commissioner for "Home Coming Week."

Will Appoint Assistant Commissioner, Hostess and Maid of Honor.

In the list of Commissioners for "Home Coming Week" announced from Frankfort as having been appointed by the Governor, the name of John B. Atkinson appears as the Commissioner for Hopkins county. The Commissioners will have charge of the headquarters for the various counties to be established at the new Army building at Louisville, each for his own county. "Home Coming Week" for Kentuckians will be held in Louisville on the 18th, 19th, 20th, 21st and 22nd days of June. A remarkable interest has been worked up all over the United States by the gentlemen in charge of the movement at Louisville and throughout a host of men and thousands of former Kentuckians will take advantage of the special rates and the special welcome arranged for them that week.

Each county Commissioner is given authority to appoint a deputy commissioner, a hostess and a maid of honor. Mr. Atkinson was asked about this yesterday, but he said that he had not completed his plans yet and could not say who he would name, but would make announcement in a few days.

All former Kentuckians who once lived in Hopkins county will be expected to visit Hopkins county headquarters and register, where they will be looked after individually by the Commissioner and his assistants. A special badge of historic design is being prepared for distribution by the various county commissioners to former residents of their counties. It is to be the greatest gathering ever held by Kentuckians.

Men Broke out of a Saloon.

Tuesday Morning when Fred Hipple opened up his saloon in Madisonville he was surprised to find one of the back windows open and the iron bars on the outside bent and twisted. His first thought was, that burglars had been at work but on investigating he found the bars had been forced from the inside and that nothing was missing. The only explanation is that some man had fallen asleep and been locked up in the saloon, and on awakening found it too lonely, thus making his escape.

COLORED COLUMN

EDITED BY JAMES E. TODD.

Those who are sick are: Miss Myrel Ratcliffe, Miss Lanan Hollands, Mrs. Mattie Hines, Mrs. Rosa Rogers, Mrs. Wm. Johnson, Mrs. Jennie Woodson, Mrs. Robert Foster, Miss Beale Amos, Mrs. Martha Morris.

Mr. Mathew Gladstone was taken home by his mother to Hopkinsville very sick Friday evening.

Mr. John Maxwell met with a painful accident by having a nail run through his foot, but he is improving now.

Mrs. Fannie E. Driver and Little Bertha Driver went to Henderson Saturday night to spend the Easter holidays. They will return Thursday.

Master Nevill McCombs, of Hopkinsville, spent the Easter holidays with his mother.

The editor visited the Sunday-school of the church of which Rev. Whitesides is pastor, and found them delving into the Gospel.

Quite a number from this city visited Madisonville Sunday, and report a nice time.

Delightful strains of music were heard Monday night. The people came, and the band boys reported sold out, and a nice sum was realized for them at the colored Masonic Hall.

Misses Mary Gilliam, Georgia Wilson and Nona B. Holland report a nice time.

Miss Mary Gilliam will leave for Paducah this week.

Misses Nontie Holland and Georgia Wilson will leave for Terre Haute Sunday night.

Mr. Geo. Edmonds will leave for Paducah soon. His many friends wish him well.

Those who spent Easter in Hopkinsville were: Walter Morton, Douglas Terry, Mr. and Mrs. Ben Medley, Mrs. Sue Johnson, Henry Tandy and Walker Stoner.

Geo. Amos spent Easter in Clarksville, Tenn.; Dock Nichols, in Evansville; Marvin Evans in Terre Haute, Ind.; Leroy Fort, in St. Louis.

The Primitive Baptists report a favorable collection for their rally which was held Sunday.

The pavement before the Mt. Zion Baptist church is being laid, and is something that has been needed very much and should extend to the front corner of the Temple Theater.

The concert given by Mrs. Fannie E. Driver Saturday night was a financial success. The program was

well rendered.

Henry Grinter died Saturday morning. His remains were taken to Ferguson for interment. A number of members of the G. N. O. of O. F. attended.

While engaged in gambling and beer drinking at Zeigler, Ills. Chas. Pace, formerly of Earlington, was shot and instantly killed by Eugene Tate Sunday night. Twenty or thirty shots were fired, and Pace's body was riddled with bullets. Two unknown men received dangerous wounds. It is thought that Tate is somewhere on the outskirts of town and is badly wounded. The cause of the trouble is not yet known.

Novel way to pay Debt.

Through the efforts of C. H. Murphy twenty seven advertisements have been secured and painted on the walls of the Tabernacle at Madisonville Mr. Murphy donated his time in securing the advertising and assisted in placing them on the walls. In this manner the sum of \$340 was secured which will be used in paying off the debt on the tabernacle.

Stockholders' Meeting.

The annual meeting of the Stockholders' of the Atpontley Coal Company is called to convene, in the office of the Company at Earlington, Ky., on Wednesday, May 2nd 1906, at 11 o'clock a. m.

This April 18th 1906
Paul M. Moore, Sec'y, and Treas.
Atpontley Coal Co.

ALUMNA ASSOCIATION

Of the Madisonville Graded School Formed.

The graduates of the Madisonville graded school met at the home of Dr. T. W. Gardiner's Friday afternoon, and organized an Alumna Association; the first banquet to be given May 25.

The first graduate from the school, Miss Sarah Glazer, was honored by being elected president; Ethel Gardner, vice-president; Ethel Porter, secretary, and Isabelle Gardner, treasurer.

The graduates of the school each year will be added to the list, and will be a permanent feature of the Madisonville school.

Nick Herb, Leonard Goodloe, Buck Shaver, Geo. Robinson.

Prices: 25, 35 and 50 Cents.

This is within reach of all. Come out and have a good time.

LOCOMOTIVE BLASTS

More Roads Will Use

Heavy Engines for Switching.

The Lake Shore road was the first to use heavy locomotives for switching and its experiments have proved highly satisfactory, so much so that the officials have ordered five of the heaviest switching engines ever constructed. The Big Four, and in fact all other railroads, are watching the work of these engines with interest and it is highly probable that locomotives of the same type will be used on other eastern lines. Heretofore the Lake Shore has held a record for the heaviest switching engines, but these new engines exceed all others by 84,000 pounds without the tender. They have under them five pair of driving wheels, each drive wheel is fifty-two inches in diameter. The locomotives with the tenders will weigh 419,000 pounds each and will have a tank capacity of 8,000 gallons.

Angus Sinclair, publisher and editor of the Railway and Locomotive Engineer, has sent an appeal to all trainmen over the United States for aid in getting a bill through congress which proposes to make a railway responsible for the cast of agents without an appeal to the common law protection of the "fellow-servant" clause. The bill is pending before the house at Washington. If the trainmen are hurt in a wreck by careless operation the new bill gives the families a cause in law against the company.

Switchman Ed. McCarthy was acting yardmaster Sunday during the absence of Yardmaster W. S. Bramwell.

Hostler Harry Withers was in charge of switch engine 508 several days last week.

Yardmaster W. S. Bramwell and family visited relatives in Henderson Sunday.

Engineer Jas. McGrath, of Nashville, Tenn., was in the city Friday.

One of the longest trains handled on the division for some time was No. 33 on Saturday night, Conductor Arch Longstaff, Engineers Coggin and Dumont being in charge. The train consisted of 1050 tons and went through to Nashville.

Judgment of the Hopkins Circuit Court in a case of the Commonwealth against the Illinois Central Railroad Company was reversed by the court of appeals Friday and the case remanded for further proceedings. The lower court sustained a demurrer to an indictment charging the company with "common nuisance" in blocking a public highway at Nortonville.

Operator Jas. Sanders has resigned and left yesterday for Paducah.

Conductor Jno. Martin, of the south end, has resigned.

Flagman Fred Ashby, of the interurban service, is on the sick list this week.

Brakeman Robert Hale, of Princeton, who is working for the Illinois Central, visited friends and relatives here this week.

Operator Westerfield is now working on the south end at the depot succeeding Jas. Sanders.

The pay car will pass over the division today and make all of the railroad boys happy.

In addition to the sixty locomotives the Louisville & Nashville road is building at its Louisville shops, it is stated by the Railway Age that orders have been placed with the Baldwin Company for thirty more with cylinders 21x28 inches, for summer delivery.

Express Agent J. H. Warner and wife were in Evansville Friday shopping.

Conductor Hawes has resumed

duty after an absence of several days.

A union depot is to be built by the three railroads entering Owensboro in the near future.

Conductor Jno. Longstaff and family, of Greenbrier, Tenn., left for home Sunday after a visit to relatives here.

Brakeman Matthews, with the Illinois Central at Princeton, Ky., visited friends here last week.

C. Y. Clark, of the mechanical department, has secured a house and moved his family from Barsley to this city.

Conductor Blondin is on duty again after several days' lay off.

Engineer Harry Pyle, who has been on passenger run for several weeks, is now on through freight.

Engineer Crawford, of New Empire, spent yesterday in the city.

O. U. Cansler was in charge of Conductor Bloudin's car while he was off duty.

Nicholas Herb has accepted a position as day caller at the depot.

Wm. Britton, of the round house force, is now firing on switch engine 503.

NEWS OF THE ILLINOIS CENTRAL.

Items of Interest From Correspondent at Princeton.

Dispatcher A. J. Jorgenson of Fulton, was here last week.

Caller Fred Pickering was in Evansville last week.

Thos. Wilson has succeeded O. A. Jakle as waterworks foreman of the Nashville division. Mr. Jakle has gone to New Orleans, where he will engage in other pursuits.

J. B. Tanner spent Sunday night in Paducah. There seems to be a great attraction in Paducah for Mr. Tanner.

Under the new schedule the day operator here receives a salary of \$75.00 per month and the night man receives \$65.00.

Engineer Fred Mitchell, who was badly scalded by the overturning of his engine at Corydon sometime ago, is convalescent and returned to his home in Paducah Saturday.

E. L. Younts has resigned the position of cashier here. He is succeeded by R. L. White.

C. P. Taylor, of the waterworks department, was in Cecilia last week putting in pipes to furnish water to yards and park.

Coal Inspector D. A. Lee and Waterworks Foreman C. R. Knowles spent Wednesday at Olaton on Rough creek, fishing.

A religious wave has struck the employees of Paducah shops. They allow no swearing around the works and hold services each day at 12:30 o'clock at the planning mill.

Roadmaster F. I. Thompson, Asst. Chief Engineer P. Laden and Supervisors Murphy and Hilliard inspected the Louisville division Friday.

Among the latest improvements of the building department is the enlargement of the passenger platform at Eddyville and the enlargement of the freight depot at Leitchfield.

The waterworks department is preparing to install an immense reservoir and waterworks at Aorse Branch; also a tank at Fox Run.

Calvin Mitchell attended court at Paducah Monday.

Stomach and Liver Trouble Cured.
Orino Laxative Fruit Syrup cures stomach and liver trouble as it aids digestion, and stimulates the liver and bowels without irritating these organs like pills and ordinary cathartics. It cures indigestion and chronic constipation. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes.
John X. Taylor.

SPLENDID WORLD'S HISTORIES FOR EARLINGTON LIBRARIES.

Historian's Histories of the World Ordered for Earlington's Benefit.

Two sets of the magnificent new Historian's Histories of the World were ordered last week by Mr. John B. Atkinson to be put into Earlington's free libraries and will be at the disposal of the public as soon as the order can be filled by the publishers. This will be great news for all the advance pupils in our schools and for every reader who cares for history or is called upon to look into any question touching any point of history since the first records of most ancient times. The sets come in twenty

five beautifully bound volumes, the last of which is the general index to the entire set. The student or the reader who cares anything for history will make a mental note of these volumes and use them when they come. They are compiled by a large number of the greatest living historians and published on lines especially adapted to the general reader, in this way becoming entertaining in the highest degree, while losing nothing in accuracy, completeness or necessary detail. This work is the most notable addition that has perhaps ever been made to our Public Libraries.

Don't forget that on April 30 there will be something doing at Temple Theatre and don't forget to come.

SPRING OFFERINGS AT THE
NEW GROCERY.

Everything Fresh In

CALL ON US AND BE CONVINCED

C. E. OWEN
MADISONVILLE, KENTUCKY

MINING NOTES.

An advance altogether of twenty-five cents per ton has been made by Southeastern Kentucky coal operators since the beginning of the coal strike. The advance is general in several districts, except those where the operators have long-term contracts with the railroads. In the Middlesboro district particularly most of the companies several months ago contracted to sell their entire output to the Southern at a fixed price for two and three years.

Work of sinking a new coal shaft was begun by Forsythe & Robinson, of Providence, this week and will be pushed to a rapid completion. It is thought the No. 9 vein will be reached at a depth of 35 or 40 feet. They will also install new machinery and construct a switch from the new mine to the track of the Providence Coal Co. The switch will be about half a mile in length.

Geo. Dockery and Lem Clark, of Linton, Ind., visited friends and relatives here last week.

Edwin Austin, of Herrin, Ill., is visiting relatives here.

Jno. Haley, of Linton, Ind., is visiting relatives here this week.

Foreman Thos Longstaff, of the Shamrock mine, Providence, was in the city Monday on business.

Monroe Butler, one of the No. 9 drivers, who was injured in that mine last week, will be able to resume duty soon.

Owing to the impossibility of one man attending to the duties of boss driver at No. 9 mine the work has been divided and Joe Egloff now assists Jno. Colbert in this position.

Two important deals in coal mining rights were made at

Henderson Monday involving about \$20,000. J. L. Nicholson, of that city, and J. L. Mitchell, of Pittsburgh, Pa., transferred to the Keystone Mining and Manufacturing Company 541 acres of coal rights. The price was \$12,017.98. J. L. Nicholson and wife also deeded to the same company 586 acres of coal rights, the consideration being \$8,087.71.

The Tennessee Jellico Coal Company incorporated at Louisville Monday with a capital stock of \$50,000, divided into 100 shares and a maximum debt of \$5,000.

Suit Filed Against Guthrie Marshal.

J. S. Johnson a citizen of Guthrie Ky, has filed a damage suit against R. L. Burrus Marshal of the town and his bondsman for \$2,500. Mr. Johnson alleges that the marshal arrested him without cause and in so doing he brutally beat him with a mace and brass knucks, resulting in serious and painful injuries. Judge M. D. Brown of Madisonville has been retained by Johnson and thinks there is no question but that a judgment would be rendered against Burrus.

City Hall for Mortons Gap.

At a meeting of the city council of Mortons Gap last week an appropriation of \$500 was made to build a city hall and jail. The council believe they will be able to erect a very creditable building with the money. This will add much to this thriving little city.

SERIOUS DISASTER ON THE KEARSARGE

EXPLOSION IN FORWARD TURRET KILLS SEVEN MEN AND INJURES FOURTEEN.

Cause of the Explosion Not Yet Determined, Nor Accountability, But a Thorough Investigation Will Be Made—Occurred Shortly After Target Practice.

Washington, April 17.—Two years to a day later than the fatal Missouri disaster, and, as ever, sailor immediately recalled, on a Friday and the 13th of the month, seven were done to death in the forward turret of the battleship Kearsarge by one of those accidents which acquire additional terror for sailors because of their obscure origin, and almost impossibility of prevention.

The Atlantic fleet, the strongest fighting fleet America has ever owned, had been for weeks engaged in the most severe drills in the waters of the Caribbean sea, culminating in the quarterly target practice.

The following is Rear-Admiral Evans' report of the explosion and its results, transmitted to the secretary of the navy:

"Calmader, April 14.—Secretary of the Navy, Washington, D. C.: On April 13, about 3:15 p. m., shortly after completion target practice of Kearsarge, forward turret, while the powder was going below, three sections of a 13-inch charge of powder were ignited. Charge of powder in other lift just below and one section inside 12-inch remained intact. Cause not yet determined, nor accountability. Matter is being investigated. Lieut. George W. Graeme, gun umpire, has been sent to the Maryland in a very critical state. The following have since died: Lieut. Higgins, turret officer; Peter Norberg, gunner; Theodore Nagley, seaman; Aston O. Thoren, ordinary seaman; Julius A. Koerster, turret captain, first class; Ellis H. Athey, seaman.

"The following was dangerous injured by accident: recovery don't hurt: W. King, ordinary seaman.

"Will bury dead at Guantanamo. Vessel uninjured."

Press reports say that 14 men were injured, and Rear-Admiral Brownson notified the navy department Sunday that Lieut. Graeme had died, and that the condition of Seaman King and Gunner's Mate Fred T. Fisher is grave. The rest are doing well.

Big Consignment of Specie.

Queensdown, April 17.—The steamer Campanian, which has just sailed for New York, has on board what is said to be the largest consignment of specie ever sent across the Atlantic on one vessel. The total value of the specie is about \$4,250,000, and its weight is close to twelve tons.

STANDARD SHOE QUALITY AT UNCHANGEABLE PRICES

Yes, it's true, Mr. Consumer, that the leather market is making all kinds of fancy aerial ascensions these days. It is also true that every reputable shoe manufacturer has been obliged to advance his prices accordingly. At least our manufacturers have. This, however, is the situation with us.

WE BOUGHT BEFORE PRICES WENT UP

We sell more shoes of all descriptions in this county than any other retailer—a fact that cannot be gainsaid. Because of this large business we must needs carry an immense stock, and as many shoes are made expressly to our order (we don't buy from jobbers), we are obliged to contract our goods months in advance of each season.

OUR PRESENT MAGNIFICENT STOCK WAS BOUGHT AT 1905 PRICES AND WE GIVE YOU THE BENEFIT OF THIS EARLY BUYING

In Mr. J. W. Sugg, we have beyond doubt the most practical shoe man in this section of the state. His good taste and shrewd judgment was never more apparent than in his selection of the nobby new styles of the FLORSHEIM SHOE for this season. Pre-eminently for "THE MAN WHO CARES," this famous shoe ranks above all competitors. Its style, durability, refined appearance and general wearing qualities are unexcelled.

"A SHAPE FOR EVERY TASTE" AND "A FIT FOR EVERY FOOT"—THAT'S THE FLORSHEIM SHOE

If you want the best possible shoe values at reasonable prices, call and let us fit you. We have shoes for all occasions—dress,—business—general wear, and shoes for strenuous service. Remember, this season we are selling you the finest shoes manufactured at former prices.

HAILEY & CO.,

THE BIG BUSY STORE

Attention, Veterans of Forrest's Cavalry Corps!

Headquarters Forrest's Cavalry Corps, Hickman, Ky.
You are earnestly requested to meet in the Washington Artillery Hall, New Orleans, La., at 10 a. m. sharp, Thursday, the 26th of April. Come to New Orleans with your local camps, and meet with them in their State Division meetings on the first day, and then meet with your old comrades as above the second day of the reunion.

By a general order No. 7, I have appointed all living field and company officers of the old army to their same positions in the Forrest Cavalry Corps, and they are hereby notified to at once communicate with all surviving members of their old command and urge them to meet as above. Each old brigade and regiment will have designated positions in the hall set apart for their use, where they can organize just as they were paroled. Thus you can find and meet your old comrades without difficulty. You can also organize to march together in the parade next day. There will be no effort made to mount the corps, as it is impossible to get horses.

Every old veteran who will attend this meeting and register will be presented with a beautiful and attractive all metal badge, having a circular pendant, supported by two chains, inclosing a perfect picture of our grand old leader, Gen. Bedford Forrest. This badge will be suitable to wear on all occasions as a badge of honor. Let every veteran able to reach New Orleans meet with us. H. A. TYLER, General Commanding Forrest's Cavalry Corps.

CHAS. W. ANDERSON, Col. Adj. Gen. and Chief of Staff.
Occasionally a woman marries her ideal man, but in most cases it is not long until her altruistic is transformed into a flat.

In Greenland the candlefish is used as a lamp. It is about six inches long and burns for fifteen minutes.

A Valuable Tip.

Martin Keller, a waiter in a Seattle cafe, a few weeks ago overheard guests at his table discussing the chances of making a fortune in Tacoma tide lands. Having saved up \$2,000, Keller boarded the next train and secured an option on a block of tide lands, and in a few days afterward received an offer from the Union Pacific of \$30,000 for the block of lands. He cleared up \$30,000 on his investment, but has gone back to his old business as a waiter. He finds that tips are sometimes more valuable than those who gave them are aware.

A Lucky Postmistress.

Is Mrs. Alexander, of Cary, Me., who has found Dr. King's New Life Pills to be the best remedy she ever tried for keeping the Stomach, Liver and Bowels in perfect order. You'll agree with her if you try these painless purifiers that infuse new life. Guaranteed by St. Bernard Drug Store. Price 25c.

Fat policemen and policemen decorated with whisks are becoming scarce on the New York police force. The active and intelligent officer whose belt extends over the building line is in constant fear of retirement and is making heroic efforts to reduce or keep down weight, as Commissioner Bingham scouts the idea that a policeman in order to be efficient must weigh somewhere near a quarter of a ton. The men are required to keep themselves looking smart, too, and a beard two days old is almost sure to come in for censure.

Good Judgement

is the essential characteristic of men and women. Invaluable to good business men and necessary to good housewives. A woman shows good judgement when she buys White's Cream Vermifuge for her baby. The best worm medicine ever offered to mothers. Many indeed are the sensible mothers who write expressing their gratitude for the good health of their children, which they owe to the use of White's Cream Vermifuge. Sold by St. Bernard Drug Store.

It pays to advertise in The Bee.

A Fine Show.

"The Hoosier Girl" appeared at the Grand Opera House last evening for her first time in this city. Here's hoping she'll come back. But may her visits be unlike the periods which caused the Governor of North Carolina to say something to the Governor of South Carolina. May she come often. Miss Kate Watson as "Roxana Peabody" as the Hoosier girl. Miss Watson's makeup is interesting and her acting in keeping. She is an artist. Gus Cohan is cast as Heinrich Wessel, and he can act from the top-most hair of his head down to the very floor. He has created a comedy part that kept the audience convulsed and his work with Miss Watson was excellent. The story running through "The Hoosier Girl" is sweet and pretty, with an atmosphere of the rural and it can be said that it is really one of the most enjoyable attractions Springfield has had this season.—From Springfield, O. Sun.

At Temple Theatre Monday, April 23.

The Irish linen industry is booming as it has not flourished in years, largely on the expanding exports to the United States.

The Richest Man in the World.

The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Care is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have seen Foley's Kidney Care and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have caused me my life." John A. Taylor.

The Cape Colony earthworm is six feet long.

Queen Elizabeth had 304 dresses when she died.

How Are Your Kidneys? St. Bernard's Pills are all you need for them. Ask your Dr. or get them at St. Bernard's.

Modern Methods to Discover Poles.

There seems to be an epidemic of polaritis, judging from the many plans of audacious and death-defying men who would carry the pole by assault since strategy has failed. The old-fashioned way of steaming as far as possible and then using dogs has gone out of style. Now it is airplanes and autos that will be used to conquer the last bit of obstinate space yet defying man. Walter Wellman will use the airship method and will be able to start when summer comes. The Duke of Abruzzi, who has been farthest north of any man, will try again to reach the pole.

Why

have a torpid liver when Herbine, the only liver regulator will help you? There is no reason why you should suffer from Dyspepsia, Constipation, Chills and Fever or any liver complaints, when Herbine will cure you. F. C. Walte, Westville, Va., writes: "I was laid up for a month with chills and fever, and after taking two bottles of Herbine I was well and hearty." Sold by St. Bernard Drug Store.

The Smoke Abatement League of Cincinnati has issued an appeal to the citizenship for substantial aid and comfort in the work of ridding Cincinnati of the heavy pall of smoke hanging over the city from Price Hill to Walnut Hills. Owing to the topography of Cincinnati the work of abating the smoke nuisance is more difficult than in other cities. The western hills prevent the winds from dissipating the smoke, save on rare occasions, and under certain atmospheric conditions. Electricity and natural gas may solve the problem.

Nothing will relieve indigestion that is not a thorough digestant. Kodol Dyspepsia Cure digests what you eat, and allows the stomach to rest—recuperate—grow strong again. A few doses of Kodol after meals will soon restore the stomach and digestive organs to a full performance of their functions naturally. Sold by Jno. X. Taylor.

Many raindrops are hollow.

COMPANY'S CABLE LINES.

Cable Island Circuit Completes Trans-English System Around the World.

When Cyrus W. Field proposed the first ocean cable his ideas were characterized by doubters all over the world as "Yankee nonsense," but the cable was laid, and its success as a medium of communication between the two worlds was immediate and pronounced. The result, says the New York Tribune, was that deep sea cables soon became a "fad" with enterprising capitalists, and to-day the electric spark traverses the civilized world through the wires of the submarine cables. When, from any accident, the wires are blocked and communication ceases temporarily, the world of business suffers a shock which almost paralyzes its energy, and until the connection is again made the commercial community is practically at a standstill.

Of all the nations of the globe Germany is one of the most energetic in the work of sinking electric cables in the depths of the ocean. She has just completed a new line between Shanghai and Yap, in the Caroline Islands, which covers the distance of more than 2,000 miles. This cable is laid at the greatest depth of any in the vast system of the world and it closes a gap which makes it the first continuous non-English line to encircle the earth. The year 1905 was, for the German cable industry, a most significant one. It not only gave the Kaiser's dominion a great many new cables, but it showed that the process of laying these lines had advanced wonderfully in its technique, so that the work can now be done rapidly, in comparison with the records of past achievements in this line of industry. The number of German cables which have a length of more than 52 miles has been increased by this new cable to 15. These include lines to England, to Norway, to Ireland, to Spain, to Sweden, two to New York, a distance of 4,790.4 and 4,911 miles; two to China, to Constantinople and to the Ladrone Islands. Besides these large ocean cables, there are a great number of shorter ones, which are partly in use between various German seaports, and between Germany and neighboring countries.

Altogether, Germany has more than 18,818 miles of submarine cable, of which, however, only about 1,392 miles are owned directly by the government. The total cable length in service in the world is between 277,402 and 279,416 miles, so that Germany's percentage, notwithstanding the progress which she has made in the last year, is very modest. Really, only about one-fiftieth of the total cable length at the service of Germany is German in its proprietorship, while England owns more than two-thirds of it. Not more than two years ago, however, Germany did not own more than one-twentieth of the cable length upon which she depends for service. Up to a few years ago no ocean cable was in a greater depth than 16,401 feet. The American cable in the Pacific ocean was, in 1902, laid to 20,469 feet. The cable Menado-Yap-Guan, laid by the German cable steamer Stephan, in 1905, surpassed this record, as it reached depths of 22,966 feet, and in laying the Shanghai-Yap cable, it was necessary, in the vicinity of the Lianliu Islands, to reach depths of 25,446 feet, which is one of the deepest places to be found anywhere in the oceans of the world. The new cable was manufactured in Germany, by the Norddeutscher Cable works, in Nordenham, at the mouth of the Weser.

The Schubert Lady Quartette.

These delightful vocalists, the Schubert Lady Quartette, of Chicago, will appear at the Temple Theatre on May 5 under the auspices of the K. of P. Lodge. Lovers of sweet singing should not miss this splendid entertainment.

Speak well of no one.

PRESENT EXCHANGE.

WHERE DUPLICATE WEDDING GIFTS ARE DISPOSED OF.

Articles That Are More Needed Are Given by Dealer in Return for Superfluous Valuables.

"It is not by chance that silver is the shop of change," explained the man, who, says the New York Sun, makes a business of exchanging wedding presents, "for at article that has been engraved, not be taken back. If this were not so the silver merchants would be inundated with returned wedding gifts.

"The bride who gets duplicates of things she could never make use of is really hampered by the stuff, and here she can select something she does want for something she doesn't.

"It matters not whether the article is engraved. We remove the engraving and restore the article to its original commercial value. Filling in the engraving has been tried, but owing to the fact that the solder used is a different combination of base metals, the lines cannot be entirely effaced.

"We don't pretend to pay cash for articles brought to us, but we do exchange them for anything we have in the shop. For instance, the superfluous tea set of one patron may be exchanged for the more desirable dish, pitcher or English flat ware of another with an outlay of money which may be trifling. Our customers are among the best people in the city. Only the other day one of the brides whose wedding caused talk came to us with almost a cartload of silver articles, wedding presents, that she was unable to use. Some even had the cards attached to them and the goods were bought at the smartest shops in town. We took the lot and will either make up something in special design for her or she will wait until she has something in stock that just suits.

"Another branch of our business is the designing and making of dog collars or neck chains out of odd jewels, old gold or the odds and ends of the jewel casket which with the passage of time accumulate in every householder's establishment.

"A woman is quite apt to have some antique bit of jewelry, heirloom or unset stone that she may want to keep for association's sake. If so she can have them made into a handsome necklace, buckle or other trinket according to original design. Here is one which we designed for a woman who happened to have these old bracelets, two pairs of earrings, a brooch, several collar buttons and some small trinkets." The man showed an original design in which the various pieces had been mounted or strung by tiny chains into a charming festoon necklace. The brooch was arranged as a pendant and could be removed and worn separately.

"For another woman we took an old-fashioned silver custer and made a stunning four light candelabra out of it," went on the man. "I could multiply instances of similar work, for the chances are infinite for turning old articles into new. In the event of an article being too far gone to restore it we pay the full market price for silver." The tricks that women resort to in the stores to get rid of their wedding gifts are many and various. When they find it impossible to return them to the store where they were purchased they will make a dash for the antique shops of the city to try and discover where they can get the best market price for the stuff. Occasionally they send the articles out again as wedding gifts to some of their friends who contemplate getting married. Some very amusing complications result, too, from this practice."

Day's Honey and Tar
and stops the cough

Frigid Running Sores

and actual rotting away of the bones and flesh result frequently from lack of attention to the proper cleansing of the blood when it is a little out of order

It has been proven to be beyond a doubt that Foerg's Remedy will cure Speedy and Painless the kind of all blood diseases. Therefore why worry with anything but this wonderful remedy if you have any of the mild forms of poisoned blood; such as Scrofula, Eruptions, Pimples, Catarrh, Rheumatism, Salt Rheum or Rosacea?

FOERG'S REMEDY IS A SAFE REMEDY

Contains no mercury or other injurious substances; it is an entirely vegetable product and is composed of some of the best and rarest drugs known to science.

Because of their expensive and rare nature, they are very seldom used by the practicing fraternity.

The formula from which Foerg's Remedy is made is the result of many years of study and practice of an eminent physician, who found it wonderfully successful.

If you are a victim of specific blood-poisoning, scrofula, or any other form of indolent blood poisoning, your future happiness depends upon whether you recognize the need for Foerg's Remedy the flag of truth and sincerity which impels him, and whether you recognize these qualities in our statements—you are willing to give Foerg's Remedy a fair chance to relieve your present suffering, and, by cleansing

your system of the foul diseases which now oppress it, grant you a new lease on manhood or domestic peace.

Remember, also, if you have been a near neighbor of mercury or other mineral poisons, your case is not one which has disappeared.

More than ever do you need the wholesome, invigorating power of Foerg's Remedy to rid your veins of this most baneful drug.

Ask your druggist or write us and procure the remedy. What is a five-dollar bill in comparison with a lifetime of continued misery? If your druggist does not handle this remedy, send us \$1 for one bottle or \$6 for six bottles, with our absolute guarantee or money refunded by druggist or this company in full. All packages sent in plain wrapper. All correspondence strictly confidential.

LESE MAJESTY IN GERMANY

Subjects of the Kaiser Have to Exercise Extreme Caution to Avoid Trouble.

Accustomed to a frank discussion of politics and politicians when the opportunity offers, an American looks with pity on the unfortunate position of the German, who must keep a close watch on his tongue when he discusses state affairs. The crime of insulting majesty, whether it be in the person of the emperor, a sovereign of one of the numerous states, or a sovereign of the state where the individual may be sojourning, is called in German by the word *Verbrechen gegen die Majestät*, "a crime against the majesty," and makes the offender liable to confinement in a fortress for a time ranging from two months to five years.

The courts interpret it so broadly that the very intent to offend, says the Philadelphia Record, either in public or private furnishes ground for prosecution. Curiously, failure to rise in response to a toast to the emperor comes under this provision, and the law may deprive the guilty person of any public office he may be holding. The truth of the allegation, as in any ordinary libel suit, does not alter the situation; it would only serve to increase the enormity of the offence.

One Privilege of the Rich.
"What would you do if you were rich?" asked the New York man.

"Well," replied the man from Chicago, "I s'pose the first thing I would do would be to have dinner at supper time, like the rest of the rich folks."

—Philadelphia Record.

Nature's Great Invention

On de barba de Amann, far away, far away, far away. What Dr. Green gives August Flower to the day. A picked flower in August is the best. An old flower is a Yankee, as long as it is still.

August Flower is the only medicine (free from alcoholic stimulants) that has been successful in keeping the entire thirty-two feet of digestive apparatus in a normal condition, and assisting nature's processes of digestion, separation and absorption—for building and re-building—thus preventing all irregular or unnatural causes which interrupt healthy and perfect natural processes and result in intestinal indigestion, catarrhal affections (causing appendicitis—stoppage of the gall duct), fermentation of unhealthy food, nervous dyspepsia, headache, constipation and other complaints, such as colic, biliousness, jaundice, etc.

August Flower is nature's intended regulator. Two sizes, 50c, 75c. All druggists.

Snow is sold in the north of Sicily, where it fetches about a halfpenny a pound. It is a government monopoly, and the prince of Palermo derives the greater part of his income from it. The snow, which is gathered on the mountains in felt covered baskets, is widely bought in the cities for refrigerating purposes.—London Tit-Bits.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is swollen, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nice cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pill for constipation.

A Woman's College for the South.

A Woman's College of the highest grade, to be located at Nashville, or some other point in the Central South, is proposed by some friends of the higher education of our Southern girls. The movement originated in a resolution in the Tennessee Conference, inviting the Holston, Kentucky, Louisville, Memphis, White River, Little Rock, North Mississippi and Alabama Conferences to participate in the consideration of the subject. Representatives of a number of the Conferences named met the 11th of March at Nashville, and adopted a plan for the endowment and establishment of such a school, with an equipment, of not less than \$1,000,000. The location of the school is not to be decided until a quarter of a million dollars shall have been raised, and then an additional two hundred thousand must be in hand before the school is opened and work is begun. The desire to establish such an institution for the higher education of girls is another indication of the growing conviction that co-education is not altogether the most satisfactory thing for our higher institutions of learning.

Don't tie a cough or cold up in your system by taking a remedy that binds the bowels. Take Kennedy's Laxative Honey and Tar. It is better. It opens the bowels—expels all cold from the system, relieves coughs, colds, croup, whooping cough, etc. An ideal remedy for young and old. Children like it. Sold by Jno. X. Taylor.

Brazilian ants make little gardens in the tree tops and sow them with pine apple and other seeds. The gardens are found of all sizes, from a single sprouting seed surrounded by a little earth to a densely overgrown ball as large as a man's head.

What good does it do you to eat if your stomach fails to digest the food? None. It does you harm—causes belching, sour stomach, flatulence, etc. When the stomach fails a little Kodol Dyspepsia Cure after each meal will digest what you eat and make the stomach sweet.

For sale by Jno. X. Taylor.

If a Cow gave Butter

mankind would have to invent milk. Milk is Nature's emulsion—butter put in shape for digestion. Cod liver oil is extremely nourishing, but it has to be emulsified before we can digest it.

Scott's Emulsion

combines the best oil with the valuable hypophosphites so that it is easy to digest and does far more good than the oil alone could. That makes Scott's Emulsion the most strengthening, nourishing food—medicine in the world.

Send for free sample.

SCOTT & BOWNE, Chemists
409-415 Pearl Street New York
50c. and \$1.00. All druggists

"No, I have no business," said the cheerful idiot. "I just dropped in to kill a little time."

"Well, thank you," said the busy man, "but really, I haven't a bit wanted killed today."—Cleveland Leader.

Is the Moon Inhabited.

Science has proven that the moon has an atmosphere, which makes life in some form possible on that satellite; but not for human beings, who have a hard enough time on this earth of ours; especially those who don't know that Electric Mitters cure Headache, Biliousness, Malaria, Chills and Fever, Jaundice, Dyspepsia, Distress, Torpid Liver, Kidney complaints, General Debility and Female weaknesses. Unequaled as a general Tonic and Appetizer for weak persons and especially for the aged. It induces sound sleep. Fully guaranteed by St. Bernard Drug Store. Price only 50c.

"There is an echo up near Niagara Falls," remarked the Observer of Events and Things; "and when a person shouts, 'Will Niagara ever dry up?' the answer comes back, 'Dry up!'"—Yonkers Statesman.

Russia leads the world in planting forests; America in devastating them.

A New Consumptive Cure.

New York.—Two weeks ago Miss Johnstone Bennett but a short time since the star in a dozen high-class theatrical productions, was an emaciated, dying consumptive, despaired of by eminent physicians and hopelessly resigned to death.

Today she was seen at her country home near Bloomfield, N. J., her face of regular contour, her eyes bright and apparently speedily recovering from the dread disease, all through the wonderful discovery and application of the curative properties of the Bermuda onion by Dr. Mark Gollinsky, a scientist, who has made an exhaustive study of tuberculosis.

Dr. Gollinsky avers that he can cure tuberculosis in the first stage within twenty days, in the second stage by the end of four weeks and any case within six weeks. He also declares that within the short time he has been practicing the onion treatment he has not had a patient die, and he has taken them in every stage of the disease.

Don't Put Off.

For tomorrow what you can do today. If you put off buying a bottle of Ballard's Snow Liniment, when that pain comes you won't have any, buy a bottle today. A positive cure for Rheumatism, Burns, Cuts, Sprains, Contracted Muscles, etc., "St. Graham," Prairie Grove, Ark., writes:

"I wish to thank you for the good results I received from Snow Liniment. It positively cured me of Rheumatism after others had failed. Sold by St. Bernard Drug Store."

The Mexican government lately concluded a contract with the Philadelphia mint for the coinage of about \$4,000,000 worth of gold which Mexico has been accumulating for about two years. The mint has already begun coining \$1,000,000 on a rush order. Since the establishment of the gold standard in that country the capacity of their mints has been overtaxed.

Double Daily Service to Mexico.

Over 19 hours saved from St. Louis to City of Mexico via the shortest and quickest line, the Iron Mountain Route and connecting lines, through Little Rock, Texarkana, Longview, San Antonio and Laredo. Through Pullman sleepers from St. Louis 2:31 p. m. and 8:30 p. m. daily. Elegant Dinner Car service. Now is the season to visit enchanting Mexico. Low rates, liberal stop over privileges. For information, rates, descriptive literature, see nearest Ticket Agent or address R. T. G. Mattiawa, T. P. A., Iron Mountain Route, 301 Norton Bldg., Louisville, Kentucky.

A Painless Cure of Curable Pain

Never resign yourself to suffer pain. Women's pains are curable. They are the sign of dangerous conditions of the female organs, which should be promptly attended to or dangerous results will follow.

TAKE Wine of Cardui

IT COMES TO WOMAN'S RELIEF

whenever she suffers from any of woman's biting and weakening pains. It not only compels the pains to stop, but it follows up and drives out the cause of the pains, which prevents them from coming back. It makes you well. Try it. Sold everywhere in \$1.00 bottles.

WRITE US A LETTER

freely and frankly, in strictest confidence, telling us all your symptoms and troubles. We will send free advice (in plain sealed envelope), how to cure them. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

"WITHOUT A PAIN."

writes Mary Shelton, of Poplar Bluff, Mo., "I can do my housework, although, before taking CARDUI, two doctors had done me no good. I can truthfully say I was cured by Cardui. I want every suffering lady to know of this wonderful medicine."

During the fiscal year ended June 30, 1906, the bureau of engraving and printing had issued to the post office, and the post office had disposed of the whole issue, 6,000,000,000 postage stamps.

SPECIAL LOW RATES.

are built on normal lasts that conform to the natural shape of the feet, allow free play to all the bones and muscles, and afford protection from injury.

Come in, We Are Always Glad to Show You.

Brasher's Good Luck Store,

BAILEY J. FRANKLIN, Manager, Madisonville, Ky.

GAS RATES IN ENGLAND.

Largest Company in the World
Charges Only Cents a
Thousand Feet.

In view of the agitation which has attended the passage of the 80-cent gas bill by the legislature at Albany, the prices charged consumers of illuminating gas in Great Britain will prove of interest to New York users of gas. "The Gas World Year Book" of the United Kingdom, just published, gives some statistics which will throw light on the manufacturing problem and will be interesting to students of the subject in the United States. Of course, the cost of production is somewhat smaller in Great Britain than it is in the United States, due chiefly to the lower price of the labor involved in the production, and this fact should be borne in mind in drawing conclusions from the figures presented.

There are 1,251 gas plants in England, 289 in Scotland, 110 in Ireland, 125 in Australia, 51 in Canada and 15 in the other British possessions. All the large Scottish towns own their gasworks, which produce 83.8 per cent. of the total of gas made in the country, while in England only 21.5 per cent. is made by municipal plants, and in Ireland 44.9 per cent. The largest gas company in the world, the London Gas Light and Coke company, makes 22,000,000 cubic feet of gas yearly, and charges consumers 59 cents a thousand feet for its use. Some of the other eleven London companies charge a great deal less, notably the South Metropolitan company, whose rate is 40 cents a thousand feet, and the Wadsworth company, which charges 62 cents. Gas cooking stoves are grown in favor in Great Britain, the increase last year being recorded as 25,000.

Overdoing Things.

"Why do you object to my eating so much?" asked the gourmand. "You know the old proverb says that in eating well one prunes the food."
"Well, you're not prunings that food," said the ascetic. "You're fattening it grossly."—Cleveland Leader.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J.W. Williams, a well known merchant of New York. He was told that twenty years ago he had severe hemorrhages of the lungs, and was near death when a brown looking Dr. King's New Discovery, it completely cured me and I have remained well ever since." It cures Hemorrhages, Chronic Coughs, Settled Colds and Bronchitis and is the only known cure for weak lungs. Every bottle guaranteed by Dr. Bernard Drugg Store. 50c and \$1 trial bottle free.

Foley's Honey and Tar
For children, safe, sure. No opiates.

Mirrors to Help the Driver.

Drivers who are obliged to run through heavy traffic to any extent find it of considerable advantage to affix a small bit of mirror plate to the right stanchion of the canopy just above the dash so that the following traffic may be observed without turning the head. Such a device may be very simple and easily contrived, and serves to relieve the driver of considerable anxiety and twisting about in his seat when working through closely crowded streets.—Motor World.

Wireless in Germany.

The wireless methods of communication are making more rapid progress in Germany than elsewhere. A new station has been established at Oberschonweide which will place Berlin and Dresden in communication over a distance of 111 miles. Several other stations already exist. There are reports of a project for installing at Nordreich a wireless system of long distance telephoning.

Dogs Lost in London.

There were 3,461 dogs received at the Home for Lost Dogs, Battersea Park road, E. W. during the last month. The total admissions during 1905 were 26,047, as compared with 26,197 during 1904.—London Express.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine, The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds.

Stockholders' Meeting.

The annual meeting of the Stockholders of the St. Bernard Mining Company is called to convene in the general office of the Company at Earlinton, Ky., on Wednesday, May 9th, 1906, at 11 o'clock. This April 9th, 1906. Geo. C. ATKINSON, Sec. and Treas. 41. St. Bernard Mining Co.

Fresh lot of Bliss' Native Herbs, Oil and Balsam at Geo. W. Fiegley's, next door to Ross' drug store, Madisonville.

PARKER'S
HAIR BALM
Cures itching scalp, keeps the hair soft and healthy. It is the best hair dressing for men and women. It is the only hair dressing that does not contain any harmful ingredients. It is the only hair dressing that does not contain any harmful ingredients. It is the only hair dressing that does not contain any harmful ingredients.

Facts Against the Pessimist.

Statistics show that the expectation of human life has been raised considerably in the past 50 years. That people live longer now than they did half a century ago and that the tendency is toward still greater longevity is undoubtedly a testimonial in support of the freer and broader life lived by the modern girl. Our grandmothers and great-grandmothers were dear, sweet, delightful creatures in their way, to whom all honor is due, but they would not compare in attainments for motherhood with the girls who are growing up in greater freedom to take their places in the world. Pessimists may frown and growl, but the fact remains that the world is in its best age and that humanity is not retrograding.—Savannah (Ga.) Express.

Munich and Heine.

The town council of Munich has determined to place a tablet of commemoration upon the house in that city once inhabited by the poet Heinrich Heine. All honor to Munich for the thought, especially at a time when German cities seem wrangling to dishonor one of their finest geniuses.—Pall Mall Gazette.

Mexico Adopts Wireless.

Wireless telegraphy has been maintained for several years across the Gulf of California and now the Mexican government has concluded contracts for a plant that will afford communication over a distance of about 200 miles, not only between the various stations of the system, but with shipping.

Uncle Allen.

"Lots of men," said Uncle Allen Sparks, "are useless in this world because they are merely well wishers instead of being well diggers."—Chicago Tribune.

DUNKERSON'S,

MADISONVILLE, KY.

Center Street, Second Door From Railroad.

JOHN CHINAMAN'S HOUSE.

Must Be Built at a Special Time and in a Special Way to Be Right.

When a Chinaman has decided to build himself a house the first person he consults is not an architect, but a sort of wizard.

This individual examines the site and marks the exact spot for the front door. In China front doors must never face due south, though a partly southern aspect is highly desirable. Only the houses of the emperor and of high governing officials may front due south.

The wizard, or geomancer, next prescribes the exact size of the front door. An inch too much or too little might have disastrous consequences.

A screen of wood or of bricks must be erected about three yards in front of the door. This is to keep out any evil breath. Not human breath, nor malaria, nor bad odors; but some mysterious and fatal something which is only to be kept out by that screen.

The wizard next locates the spot for the kitchen fireplace. This also must not face south, because the south represents fire; and the kitchen fire, working together, would be so powerful that the house would naturally burn up.

Having settled the question of place, the wizard figures out a time when work may be begun with some degree of safety. For instance, if the earth god should be at home when the workmen began digging they might stick a spade into his august cranium and then there would be the devil to pay. The family living in that house would die out.

The would-be builder must also find out whether it is a year when he may with safety begin anything. There are lots of these unlucky years. A man must not be married, for instance, when his age is 24 or 26, or any even number.

Having picked out a favorable year, John must next consider his two lucky months, for there are only two out of the 12 which are favorable to his undertaking new things. Then his yellow road days or good ones must be determined. There are more black road days than yellow ones, so the auspicious moments for starting his house are finally reduced to a pretty limited number.

But that isn't all. The lucky days of the whole family must next be figured out, compared with John's own yellow road days and the result boiled down. The proper moment for putting the front door in place, for building the kitchen fireplace and so on are then decided on, and, after waiting perhaps several months for the auspicious day to arrive, John can at last begin work.

Take the family paper—THE BEE.

THE MOTOR OR THE HORSE

Big Automobiles Are Taking the Place of Animals All Over the World.

It will probably be many, many years in the future, if the time ever comes, before the automobile will put the "laboring" horse out of business. But the motorists declare that the fate of the carriage horse, anyway the city animal, is not so far distant. They maintain, and with some show of reason for the contention, that it is only a matter of a few years until the "smart" carriage horse, with "bob" tail, high head and silver trimmed harness, will have to seek some other means of earning out and pay.

Kansas City, says the Star, is perhaps behind a good many other cities of its class in the motor game. But it is true here as elsewhere that many families which have always maintained a stable of horses are neglecting and then gradually giving up the animals in preference to the automobile. It works out this way:

"My dear," remarks the head of the family, "I am thinking of buying an automobile. It's just an experiment, you know. Of course, we will keep the horses and use them principally."

"Mercy! no, John; we mustn't give up the horses," says the wife. For a week or two they are too busy learning how to drive the new motor to think about the horses. Then some Sunday afternoon a sense of duty, more than anything else, compels them to have the surrey and the pair of bays brought around to the carriage entrance and they go for a drive. But somehow they seem to poke along and there is something lacking about the ride. Neither one mentions it, but before long another and then another motor car finds shelter in the stable and the horses go out through exit No. 23.

The speed craze in automobiles has also died out. What the purchasers are giving attention to now is the reliability of a car and what will be the minimum cost of repairs. Formerly the first question asked was: "How fast can it go?" Now the inquiry is: "How far and how cheap will it go?" This is especially true in this vicinity, where the roads are narrow and there are many turns. Twenty miles an hour is as fast as anybody cares to go, and almost any car will do that.

Expensive Transaction. Forty years after the Bodleian library at Oxford had received a copy of the first folio Shakespeare—that is to say, in 1611—the library of that institution, clearing out some "superfluous books," dumped the first folio in the lot and accepted \$120 for the paper. Now the Bodleian has a chance of buying it back again—for \$15,000.

Pleasure is often pain.

JOB WORK

Will receive prompt attention at this office. Estimates furnished upon application.

Paint Saving and Satisfaction.

The PRICE of paint never depends upon the original cost. It is the wearing quality that counts. The life of the best paint is fully twice that of the inferior grades, while the difference in original cost is hardly worth considering. The higher priced paint in reality always costs about half that of a cheaper grade, everything considered. When you can get the high grade paint at practically the same cost as the low, the saving is, in fact, a notable one. This is a saving we endeavor to insure our customers. We insist first upon quality, no matter what the price has to be, and then endeavor to make the price as low as possible. We carry

Sherwin-Williams Mixed Paints

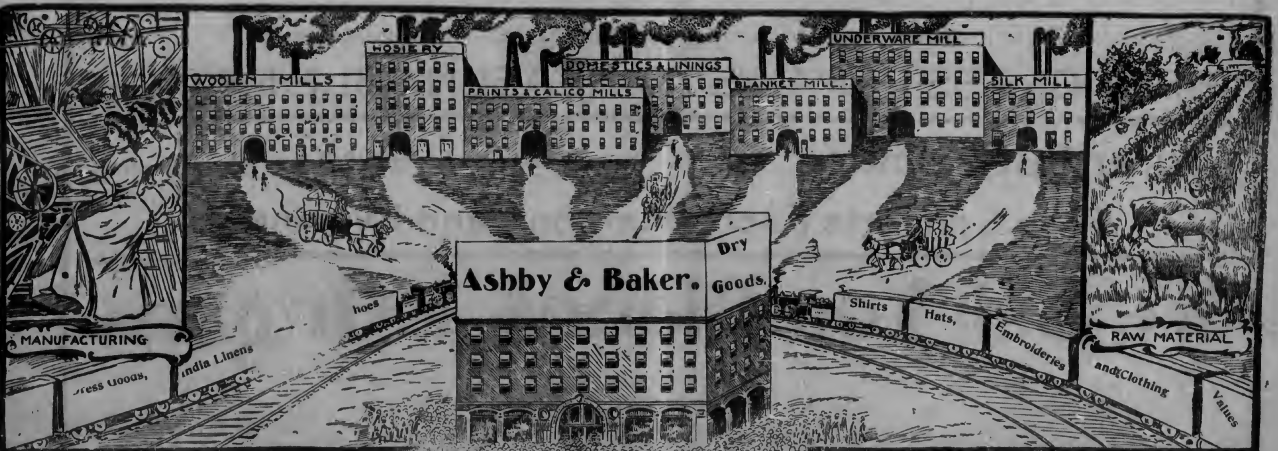

If you buy anything in this line that costs less than these paints you will get less than you pay for. Cheap paints contain cheap pigment and a little oil, and poor material throughout. Compare the weight of a gallon of Sherwin-Williams paint with any of the cheaper paints and you will need no further argument. These paints are, in fact, so heavy that, as a rule, a pint of oil should be added to each gallon, which decreases the cost still further. No matter what you may need in paints this spring it will pay you to see us about it.

Gardiner & Bowmer.

20th Century Druggists.

ASHBY & BAKER'S
